3pm till late - 22nd June

Neil Cunningham was a professional racing driver for 27 years, and latterly a stunt driver for Top Gear Live. I also worked on the Bond movie Quantum of Solace. In 2010 Neil was diagnosed with Motor Neurone Disease.

Neil set up the *Racing4MND.org* website with the Heaton Ellis Trust to raise money to support research into this horrific disease and particularly to support the research conducted at Kings College Hospital by Professor Christopher Shaw and his team.
