

Disassembles for easy transport

#### Technical Specification Sheet

## Mobile Gantry Crane 2000 [MCO92]

The strong but lightweight structure of the Mobile Gantry Crane 2000 means it is the ideal portable lifting aid for resetting large memorial stones and handling heavier stone items weighing up to 2 tonnes.

Suitable for both indoor and outdoor environments with a corrosion resistant aluminium frame, this gantry can be quickly disassembled and compactly stowed for quick and easy transport. Its slender profile and locking wheels mean it can work in confined and awkward to reach lifting locations.
