

Technical Specification Sheet

**Mobile Aluminium Gantry Crane** [MSL50]

[1000kg]

Lightweight, compact and easily folded for quick transportation, the portable compact gantry crane is designed for both outdoor and indoor use.

The spur gear hoist provides a 3m hook height and is lockable across the top beam to secure a load into position. The legs are height adjustable from 2.4m to 3.2m and optional off-road pneumatic tyres are also available for working on softer terrain.

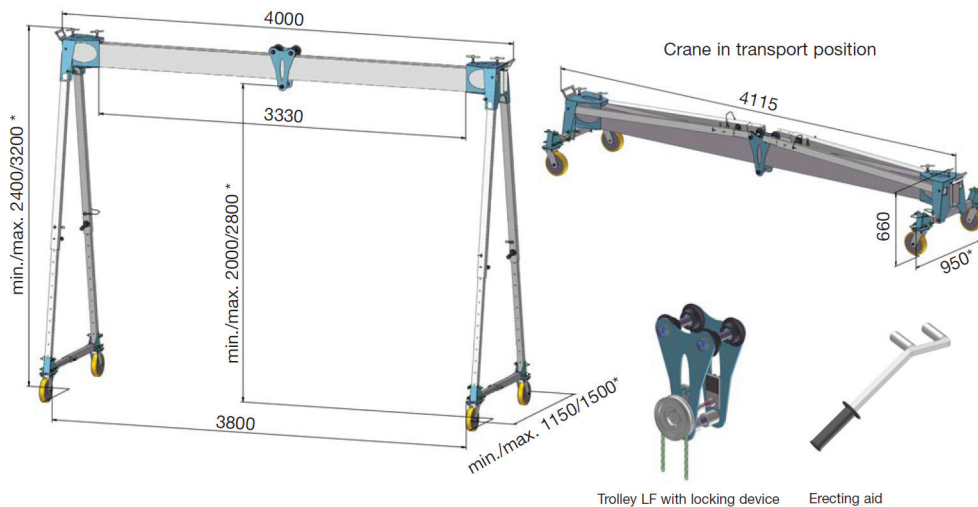

A popular choice for stone masons, stone merchants and memorial masons, the portable compact gantry crane is a great aid for resetting stone into an upright position when combined with one of our stone clamps.

**Features**
