

Technical Specification Sheet

Stairbuddy 318 [AGT150]

This powered stairclimber is a practical time-saving solution for moving awkward and heavy loads up and down flights of stairs, on and off transport vehicles or onto countertops.

With a 318kg load capacity, the Stairbuddy 318 has a lightweight yet strong aluminium and steel frame which is ideal for handling filing cabinets, boilers, security safes and whitegoods.

The trolley can be operated by one person as its climbing mechanism moves the load without damaging steps.

Features

- Capacity: 318kg
- 610mm wide x 150mm deep standard toe plate
- 300mm deep detachable extendable toe plate
- One way safety wheel braking system
- 200mm diameter rubber tyred wheels
