## Flexible Slab Transport Cart [160kg]

The Flexible Slab Transport Cart has been designed to transport stone, steel plates and glazing etc across warehouses, factories and construction sites.

Featuring a capacity of up to 160kg, the Flexible Slab Transport Cart includes four swivel castors so it can easily manoeuvre loads across flat, smooth surfaces.

The Flexible Slab Transport Cart also features rubber protection strips to help protect the load from damage and includes straps for securing the load during use.

### Key Features

- Capacity: 160kg (80kg per side)
- Easy to transport
- Swivel castors with brakes
- Durable and lightweight aluminium frame
- Rubber strips on the frame provide protection
- Crossbar can be adjusted up or down for various slab sizes
- Weight: 29kg

### Reference Code

AGT32
