

Trolleys

Self-Locking Stone Slab Trolley [500kg]

The Self-Locking Stone Slab Trolley is the ideal aid for transporting stone, marble and granite etc across site.

This Stone Slab Trolley features a capacity of up to 500kg and includes pneumatic tyres, making it ideal for use on uneven ground.

Made from steel and aluminium, the Stone Slab Trolley includes two sets of spring-loaded clamping plates to ensure the grip is equally divided across the load being transported.

Both clamping plates feature rubber lined jaws to provide greater surface protection to avoid damage to the material being carried.

Key Features

- Capacity: 500kg
- Easy to transport
- Large wheels for working on-site
- Self-locking v channel with large rubber pads
- Weight: 48kg
- Easy to disassemble for transport
