Following the very successful Open Day in 2022, GGR Group is once more opening our doors and hosting the Lifting Lead AP Group Open Day at our headquarters in Haddenham, Buckinghamshire on Thursday 14<sup>th</sup> September 2023.

Attendees will have the opportunity to see some bespoke lifting equipment and get ideas on different lifting applications, particularly innovations for load control and people load interface solutions in addition to this you will see a range of lifting work being carried out by specialist lifting professionals across the UK. Guests will also have the opportunity to hear from leading industry speakers on a variety of topics

Visitors will be given the opportunity to take a tour inside the facility and view a variety of product demonstrations, including GGR's pioneering lifting equipment, glass vacuum lifters, glazing robots and UNIC mini spider cranes.

A variety of innovative equipment will be on display including electric and diesel telehandlers, new overhang beams and other specialist lifting equipment such as the popular multi-loader tracked leveller & carrier range. Key topics will focus on many aspects of lifting, loading, lowering, training, people, plant, vehicle interface, new and improved methods of working and areas of innovation.

In addition to the site tours and product demonstrations, entertainment and refreshments will be provided to visitors at the site throughout the day. Below are just some examples of the types of lifting solutions you'll be able to see on the day.
