

Stone Lifters

Stone Vac GSK200 [200-300kg]

One of our bestselling stone vacuum lifters, the Stone Vac GSK200 can easily lift stone panels, blocks, bricks, paving slabs and kerbs weighing up to 300kg.

Capable of lifting stone in both vertical and horizontal positions, the Stone Vac GSK200 features a constant running vacuum system to lift different stone types including porous limestone, as well as polished granite and marble.

This below-the-hook stone vacuum lifter is powered by a rechargeable battery so there are no tricky cords to deal with during operation.
